### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### ***DETAILED ACTION***

Claims 9-16 have been cancelled. Therefore, claims 1-8 are pending in this application.

#### ***Priority***

This application is a DIV of US Application No. 10/375,668 which is a CON of US Application Serial No. 09/727,960, filed December 1, 2000, which is now abandoned.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a), which forms the basis for all obviousness rejections, set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

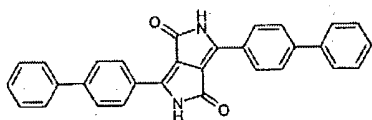

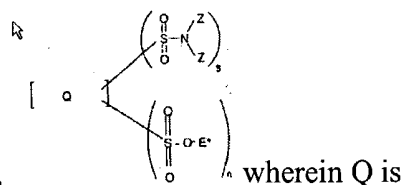

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-8 are rejected under 35 U.S.C. 103 (a) as being anticipated by Jun et al., JP

2000-273346-A.

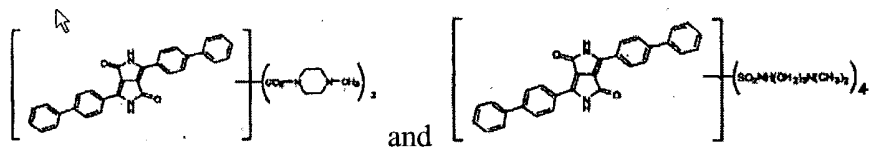

Art Unit: 1626

Applicants claim pigment dispersant of Formula I,

Determination of the scope and content of the prior art (MPEP §2141.01)

Jun et al teach pigment dispersant and pigment compositions of the Formula

Ascertainment of the difference between the prior art and the claims (MPEP §2141.02)

The difference between the pigment dispersant claimed in this application and that of Jun et al is that the prior art recites a specific species and more limited genus than the present application. For example the “s” and “n” values of the formula I of the instant Application are not specified in the prior art.

Finding of prima facie obviousness--rational and motivation (MPEP §2142-2413)

It would have been obvious to one having ordinary skill in the art at the time of the invention to select any of the speices of the genus taught by the reference including those in the claims, because an ordinary artisan would have the reasonable expectation that any of the species of the genus would have similar properties and thus the same use as the genus as a hole.
